

Dr. Theoni Alexoudi obtained her MSc Diploma in Networks, Communication and Systems Architectures from the Department of Informatics of the Aristotle University of Thessaloniki (AUTH) in 2010. She obtained her PhD degree in “Optical peripheral circuits for high-speed WDM-enabled optical RAMs» from the same department in 2015. In 2015 she was appointed a Marie-Curie Fellowship and worked as post-doctoral researcher at Phoenix BV and in the Twente University in the Netherlands. She has been also awarded an IKY postdoctoral scholarship (2017) for her research work on low-power and high-speed optical RAMs. Her research interests include optical interconnects, optical memories and signal processing. Since 2023 she has been working as a postdoctoral researcher with the department of Management and Technology of Democritus University of Thrace in Kavala.
